1972 Bronco - $3

image 1

Nice 1972 Bronco. Runs ar
with a frame up restoration
built High Performance 35
transmission. Same usage g
road very well. Runs at hig
and at 2500RPM's. Drivability is so good due to the overdrive transmission, the high horse power motor, and the 4 wheel power disk brakes.

Take a look for yourself. Very great rig. Just in time for Christmas.
Here is a quick list of the new parts.... Many of them high dollar, (machined aluminum - billet), components. The engine compartment looks incredible.

High Performance 351W with Auto 4 speed Overdrive transmission and twin edelbrock 4 barrel carburetors.
Billet power steering
Billet alternator
Billet engine pulley system

Billet battery cover
Optima red top battery
